Ebenezer Tay

Aspiring UI/UX Designer & Tech Innovator | Co-Founder @ SnapRent
Singapore, Singapore

Summary

Hi, I'm Ebenezer — a web designer, software developer, entrepreneur, and certified swimming coach with a unique blend of technical expertise and coaching experience. I pursued a Diploma in Information Technology at Singapore Polytechnic, along with a Minor in Entrepreneurship, where I deepened my knowledge in software development, UI/UX design, and business innovation.

Throughout my academic journey, I took pride in building impactful digital solutions and launching startups aimed at solving real-world problems. I co-founded platforms that enhanced the rental economy and streamlined access to educational and extracurricular services for families. These ventures not only allowed me to apply my technical skills but also nurtured my entrepreneurial mindset.

In parallel, I worked as a certified swimming coach and lifeguard, mentoring students of all ages and skill levels. I found great purpose in helping individuals build confidence in the water while promoting physical fitness and safety. Coaching taught me discipline, patience, and the value of tailored guidance—skills that I carried into my tech and business projects.

Whether I was designing user-centric websites, developing full-stack applications, coaching in the pool, or leading early-stage startups, I was always driven by a deep desire to empower others and create solutions that make life easier, safer, and more meaningful.

Experience

SnapRent
Co-Founder
September 2024 - Present (1 year 6 months)
Singapore

- ⇨ SnapRent – An all-in-one rental platform for gadgets, fashion, baby gear & more
